/ WORK EXPERIENCE

>> Junior Full Stack Web Developer Trainee
BOOLEAN ACADEMY | Gen 2024 - Jul 2024

- Developed a full-stack application in a team of 5 developer, inspired to Deliveroo. It features the entire web-flow of ordering from a restaurant and the payment process implemented using **Braintree**.
- Developed a showcase website using **VueJs** including the feature that allows to contact a professional and set an appointment on a personal calendar.
- Developed a Whatsapp layout lookalike Single-Page-Application using **Laravel** I've Included the feature to create, edit and delete messages.
- Developed a Single-Page-Application that show a catalogue of movies, by performing an API call, using **Javascript** the results can be searched and filtered.

>> Freelance Video Creator and Video Editor
FREELANCE | Nov 2022 - Nov 2023

- Production of high-quality video content using an **iPhone 14 pro** and a **DJI Drone**
- Projects Video editing using **DaVinci Resolve**, a powerful video editing software that allows precise color grading, motion graphics, and post-production finishing

>> Section Waiter in various avenues
AUSTRALIA | Nov 2022 - Dec 2023
UNITED KINGDOM | Gen 2019 - Jul 2019

- Responsible for providing excellent service to a specific section including, beside all the basic tasks, addressing any **customer needs or concerns**.
- **Coordinates** closely with the kitchen staff to **ensure timely and accurate delivery** of food orders.
- Maintains a high level of **organization and attentiveness** to provide a seamless dining experience for customers.

/ EDUCATION

>> Master Full Stack Web Developer
Boolean Academy | Gen 2024 - Jul 2024

- Intensive 6-month full-time program where I learned to use modern web development technologies, enabling me to become a skilled full-stack web developer proficient in both front-end and back-end development.

>> Degree in Economics
Michele Dell'Aquila ITS | Set 2012 - Jul 2017

- Accomplished a 5 years degree course in a local high-school learning the basics of economics with a focus on the economics of tourism
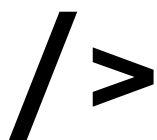

/ ALL ABOUT ME

During my life experience in Australia as a video editor, I realized my true passion lies in the world of coding and software development. Inspired by my experience in visual storytelling and post-production, I now apply my creative problem-solving skills to deliver innovative software solutions. I'm excited to combine my technical aptitude and eye for detail to create stunning user experiences in my current role.
